Miss Elizabeth Oliver,
Animal Refuge Kansai,
1-15 Nose Branch,
1-15 Noma Ohara,
Nose cho,
Inyongun,
Osaka-10 563-01,
Japan.

17th. August, 1997.

Dear Miss Oliver,

Thank you for your letter dated 9th. August. We share your concern about the issue of Tenri and it is unfair of you to suggest that we are doing nothing. We are in touch with the television news services in the hope that they will feature Tenri. Should this happen and they ask what is to happen to all the animals should this dreadful hellhole be closed, what should we tell them?

Tenri is also the main feature in our forthcoming Newsletter and no doubt will create a further wave of protests to the Japanese Ambassador in London.

All 500 of the postcards you sent to the office have been distributed.

Our office staff have, in fact, personally, written to the Japanese Ambassador telling him of their horror of the conditions at Tenri and demanding that action be taken.

Our staff also collected many signatures to the "Shomei Undo" (14). The Tenri petition, to be handed to the Governor of Nara, and organised by Mrs. Matsuda of Hanshin.

Rest assured, JAWS UK are doing all they possibly can to help the animals of Tenri.

Yours sincerely,
