Points to ask Nara Prefecture:

1. Why, despite knowing about Mr. Fukushima's habit of taking in dogs and his appalling way of keeping them, did they not move to do something earlier ? Already over 10 years have passed, and the number of dogs (and other animals) that have died there is over 10,000.
2. ~~Are~~ Is Nara Prefecture aware of Law 105 ?
3. If yes, have they read it ?
4. Do they think Mr. Fukushima and Mrs. Tsubouchi have violated the Law ?
5. If they do, why is it not possible to use the law to remove all the dogs and to prosecute the pair ?
