

Coco the cat

Coco was found on the mountain road behind ARK, ironically by two construction workers building the new cat facility. She was in a box with two badly mangled rear legs, about 6 months old. A note in the box said she was a stray being fed by some office ladies, when she was hit by a car. Well, she was rushed to Higashida sensei, who came up with quite a different hypothesis. X-rays showed that her two back legs were broken, but also revealed an earlier break that had healed without treatment. As she had no face cuts or contusions or other injuries common in car accident victims, Dr. Higashida believes someone had intentionally broken Coco's legs. However Coco, being the loving, sweet, forgiving creature that she is, never left. Some third party saw the situation and probably dumped her up on the mountain with the spurious note. Dr. Higashida has wired her legs together and thinks she'll eventually have 80% of their usage back. She is still as friendly as ever and not afraid of humans at all, despite her awful experiences.

ARKの入り口のすぐ側にある犬舎で暮らすマルは、お散歩が大好き！！リードとハーネスを持って入ると大歓迎してくれます。印象的な瞳がチャームポイントで、相棒のチビと一緒にいつも通る人たちを眺めています。

元気のジョーカーは、いつも山の犬舎の中を走り回っています。おまけにジャンプが得意でとっても身軽。以前のニュースレターでも御紹介した、大阪城から来た「Jo-Jo Dogs」（全員、大阪城のJoから取った名前です）の一員です。毛の模様が独特で、まるで牛のようです。散歩の時の歩き方がとてもキュートで、後ろから見ると、まるで舞子さんがシャナリシャナリと歩いているように見えます。
