

l'Escala, 25th November 1992

Dear friends, JAVA - JAPAN

See enclosed here-with, a rapport about life and death of fighting bulls in Spain and a circular letter (with photo) to be sent to our Parliament by thousands, soonest possible, from all over the world. Our catalan fiestas are as cruel as in other parts of Spain and nobody mention them. And our politicians fear about this hugh international campaign and soon are going to have a debate into our Parliament. Your pressure and urgency will be decisive because it is all prepared to get our first big victory.

Hope you can help as it is my last request to the world. I cannot continue coordinating this campaing any longer, as at the end of this year I'll have to leave l'Escala due to serious health problems. So, do not send signed petitions to me but directly to the Parliament.

To send the petitions signed directly to the Parliament provokes a great POLITICAL IMPACT as they do not know what makes so many people react like that knowing exactly what happens with animals in Catalonia.

Corridas are a political problem, so it has only a political answer. Our pressure is a total boycott. Tourism is very low now, so please take advantage of this terrible fact for our economy and prestige.

I rely on you for the last time. Take it seriously. It is very important.

Good luck. Thank you and my best regards.

Pilar Taberner
