

ge/bloody "Spanish Fiestas Populares") including locking him up in a dark, small box, that it's difficult to describe them each in words, hence my attempt to put it in writing for the world to learn this truth!

Monies are never held back for the construction of the newest bullfighting rings complete with most sophisticated equipment, etc.! Each costs: 1,500 million pesetas and at least one million comes from people's income taxes against their will. These structures may be private or public and always subsidized/protected by the government and public treasure. NOTE CAREFULLY that these arenas are the first step for the youth to become addicted to shedding blood/murdering helpless beings... PLEASE NOTE: the tourists contribute to preserve these cruel, degenerated fiestas!

Sad that these fiestas are legal and imposed on people through mind manipulations. When persons or groups (who know better) express disapproval to the government-supported bullfight maffia, they are considered "dangerous to the country" and persecuted and severely punished. They received serious death threats and/or were made to lose their jobs. They are constantly spied on like common criminals, to prevent the real possibility of these kind people stopping this filthy but lucrative business of bullfighting, by telling the world what bullfighting REALLY represents! BUT, THE PUBLIC DOES NOT KNOW THAT A STRONG WORLDWIDE MOVEMENT AGAINST BULLFIGHTING EXISTS IN SPAIN, BECAUSE NEWSPAPERS DIDN'T HAVE THE DECENCY/GUTS TO PUBLICIZE IT!!!

Bulls' Meat Given to the Poor?????

While slaughterhouse meat costs about 50,000 pesetas, the price for meat out of these fiestas populares and bullfights goes up to 250,000 (5 times more expensive!). It's all part of the great fraud. Bullfighting doesn't help the poor - doesn't even help the middle classes!.

These fiestas/bullfights cause nations to be decayed, yet they are considered as "culture", "tradition" and "art"! But these cruel/old relics are enjoyed only by drunkards, drug addicts and
