

Y

illiterates. They are DELIBERATELY called "culture", "tradition" and "art" to make the masses believe they are a "good" cause. Ministries of culture, the king, church leaders and other "professionals", etc. subsidize this carnage, but it comes from the people's hard-earned money as forced taxes (yet a Gallop survey showed over 50% of Spaniards DO NOT WANT SPANISH FIESTAS POPULARES NOR BULLFIGHTS!!!). Many Spanish politicians, priests and other "professionals", etc. are closely connected with fighting bull breeders. That's why (among other reasons) bullfighting and the bizarre/terrifying tortures to other animals in the fiestas populares are not subject to the Spanish Penal Code. The King's Decree signed by the present king's grandfather that prohibited admission to bullfights and boxing to children under 14 years old to spare hurting their tender sensitivities (which was always shamelessly violated though), but is now voided by the new Spanish Bullfight Law where all children, even infants, can be spectators and clients!!!

A great Spanish writer, Eugenio Noel, forgotten and ostracized because he opposed bullfighting, said that "THE LARGEST BULLFIGHT RINGS IN SPAIN WERE THE CONGRESS AND THE SENATE."!!! Sad but real. Incredible political corruption exists in the bullfight business, and it's impossible to confront it on equal terms (the media have sold to the bullfight maffia and are showing bullfight propaganda, while they forced us to silence!!!). People who do confront this maffia put their lives dangerously on the line. Everyone knows bullfighting is a business owned by the few corrupted wealthy, and it is the biggest cultural fraud in the history of humanity!!!

After dictator Franco's death, Spain became socially and politically organized by towns each with its own Parliament. I WANT TO EMPHASIZE TO ALL THE ANTI-BULLFIGHTERS OF THE WORLD that the only authority to prohibit bullfighting in Spain is each individual Parliament with the approval of the Madrid central power. For instance, the Parliament of Catalunya is the most progressive and ready to take this important and quasi impossible step toward victory IF it receives your strongest support!
