Dear Colleagues,

ACTION ALERT:

***FINNISH FUR FARMING**
***EXPORT OF FINNISH FURS TO**
YOUR COUNTRY

Please find enclosed really up-to-date material on Finnish fur farming.

95 % of Finnish furs are exported, so to be able to stop this trade in Finland, we must influence consumers in the destination countries of the furs. This is where we need your help.

The largest winter auctions of fur pelts are approaching, and buyers from your country are coming to Finland to buy fur pelts to be made into fur items and to be sold in your country. Please do your best to influence the public opinion against fur, so that the buyers buy as few pelts as possible.

We hope that in the material provided you will find new arguments that you can use to boost up your anti-fur campaign. If you need any further information, or you have questions, please do not hesitate to contact us.

Best wishes,

A handwritten signature in dark ink, appearing to read "Mauri Leivo". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Mr Mauri Leivo
Anti-fur co-ordinator
Animalia-FPA

PS Please find enclosed a mailing list for this letter and information. If you know of any organisation which would be willing to campaign against fur, but which is not included in this mailing list, please forward the material to them. Thank you for your co-operation.
