Trapping of Wild Boars

Ref your fax today, I have checked with JAVA and NO FUR FUND members. So far I do not have any information about the trapping taking place in the hills near the Futatabi Driveway in Kobe, but NO FUR FUND will try to obtain some information, and I will pass the information to you as soon as I receive it.

I have left a message with ANIMAL RIGHTS CENTER, and if they have some information on the above, I will pass it to you too.

Just for your information, NO FUR FUND will be holding a demonstration against FUR and leg-hold traps on Feb 22 in Yokohama where the 1993 Int'l Fur Fair will be held. (Feb 22-24 at Pacific Convention Plaza Yokohama)

I don't know if PETA (People for the Ethical Treatment of Animals) will send their activists again to protest this year too, but I hope they will. (Do you remember the "I'D RATHER BE NAKED THAN WEAR FUR!" march last year?)

Sincerely,
