

2/2

b) The man who is feeding the boars is Atsushi TAMURA. We tried to persuade him into stopping feeding the animals, but he did not listen to our request.

c) This man started feeding the boars as early as 1979.

A wild boar ecology study was conducted in 1990, and the "Wild Boar-Handling Committee" was established in 1991.

Wild boars exterminated during the non-hunting periods:

1988 - 243
1989 - 301
1990 - 236
1991 - 202
