

Due to a grave and urgent " NECESSITY " ; the Chinese/Korean/Japanese " gooks " (*spineless pushovers: sub-human slimeballs) were turned into slaves and were forced to build the railroads for this country.....from one end of the country to the other end, up & down, and a-l-l over.

The pain, injury, deaths, mutilations, abject humiliations, and finally the genocides inflicted upon the " gooks " were " NECESSARY. " " Logically and properly, " 99.9 % of the 10,000,000,000 of the gooky-slaves were not murdered but rather, " put-to-sleep " after they were through being exploited..... gooks were afterall the expendable " others " ; funny-look'en two legged animals.

Rationally and logically, even though the gooky-slave-animals had laid the economic foundation for this Super-Duper-Economic-Superpower (*without the gooky-slave-animals, the U.S.A. would be not much better off than the Australia), the gooky-animals were never given the credit not much is mentioned in the history books, no great foundations have enlisted the scholars to do a unbiased research of this terrible wickedness and tragedy, no national holidays or the national anthems are sung in gratitude/homage over the gooky-slave-animals who had brought so much blessings for this country, no mountains are carved with the "strange, odd, and animal-like" faces of the gooky-animals, and no statue of liberty with the "goofy" look'en long-black-pigtail, holding the railroad hammer is facing the Pacific Ocean.
....not a one novel titled, " Uncle Hirohito Kim Tse Tung's Cabin " has ever been written !

Reasonably and logically, why give the mere "Animals" the equal rights, the same protections, and the same historical considerations as that of humans??
