Thunderstorms/Heavy Rain

Some dogs get extremely frightened. Avoid taking dogs for walks. Make sure inside kennel doors are closed. If the enclosures start to flood, unblock holes in block wall with metal pipe. (It is wise to do this anyhow if heavy rain is expected)

Any dog that escapes, put in secure cage downstairs in office or in barn.

Dogs to keep and eye on. Mogu (epileptic), Kelp, Chacha, Ryo.

Also make sure all windows and shutters of house are also closed.
