

Ikeeda hokensho, Toyono and Nose town
of Osaka Pref, are going to hunt home-
less dogs on 7th, 12th November, giving
them "high class food" with poison in it.

Hokensho ^{used to} give them chicken head as the
"trap" in hunting homeless dogs, but
it is no longer effective these days.

Most of these dogs were kept in home as
the pet and thrown away for some
reason, so they can't forget the taste
of delicious food even now. That's why
chicken head is losing its effect.
