

What we need to do is rescue as many non-feral animals as possible to try to avert such a situation.

What can concerned KTO readers do to help in this difficult situation?

Where possible, please adopt an animal that has lost its owner, and encourage your friends to do the same where their temperament and situation allows. ARK is in constant need of money, pet food, blankets, old newspapers, collars and leads. Money is especially useful because it can be easily exchanged for all the other things we need for the animals. Anyone who would like to raise money for ARK activities through discos, raffles, sponsored walks or whatever, please contact us. Skilled volunteers are always useful, especially those with experience in dog or cat handling, veterinary practice, carpentry, building. And finally, with 10 to 20 people run off our feet all day at ARK, a good cook, cleaner or tea maker would be extremely welcome.
