Dear Ms. Nogami:

The World Society for the Protection of Animals (WSPA) which has been providing disaster aid to animals for more than 30 years, is willing to provide some assistance with specific emergency needs of animals in the Osaka region as the result of yesterday's earthquake.

WSPA would also appreciate any information about the status of the animal population, including companion animals (dogs, cats, etc.), horses, livestock and wildlife. For instance, what type of animal has been most affected? Is there a need for additional staff and/or supplies, such as feed, antibiotics or other animal handling equipment? What damage has been done to current animal sheltering operations?

You may fax this information to my attention to (617) 522 - 7077 or I may be reached by telephone at (617) 522 - 7000.

Best of luck to you and I look forward to hearing from you soon.

Sincerely,

[REDACTED]
Disaster Coordinator
