Emergency

In an emergency situation, the foster care animal must be brought to the Shelter immediately. We are open 24 hours a day, 7 days a week. Be sure that you bring the home sheet with you. If the technician feels that the foster care animal should be seen by a veterinarian, the animal will be transported immediately to an emergency clinic. Call Dr. Allen between 12:30 - 1 p.m. the next working day to obtain a current update on the foster animal's condition.
