Supplies

All supplies including medication are provided to you while the foster animals are in your care. When you are low on supplies, contact the Foster Care Coordinator. If unavailable, leave a message stating what supplies you need and the time you will be arriving to pick up the supplies which will be left for you at the front desk. On occasion, we run low on supplies so there will be times when you may not receive all the necessary supplies. So, please, call well in advance.

Mortality

Unfortunately, we do not know the history of most of the animals that arrive to the Shelter. They could have been in contact with an animal or born with Feline Leukemia, F.I.P., Distemper, Parvo, etc. The Shelter animals are examined by the Shelter Veterinarian but, unfortunately, some do not start to show signs of disease until later. If a foster animal passes away in your care, please contact the Foster Care Coordinator.
